OUR FOOTBALL PHILOSOPHY & STRATEGY

OUR PLANS TO DELIVER FUTURE SUCCESS & THE PART YOU CAN PLAY
ABERDEEN FOOTBALL CLUB HAS A RICH AND PROUD HISTORY, ONE BUILT ON TRADITION, SPIRIT AND SOUL.

Through a refreshed football philosophy and strategy, we aim to engage and inspire our supporters with an exciting brand of football, with homegrown talent at its core. These unprecedented times present a real threat to Scottish football and to the Club we all love. However, we must look to the future, confident that we have the resilience and creativity to get through this stronger, together.

This is why we’ve been working tirelessly to adapt our plans to be well-positioned for the new reality facing us all. Part of this has been refining and articulating our overarching football philosophy and strategy, which we are now sharing with a view to reigniting your passion for the Club and exciting you about the future.

In the short-term, we are fighting for our survival and a sustainable future, but we have longer-term aspirations with every intention of seeing them through. These are competing and winning at the highest level possible, bringing silverware back to share with our supporters, our city and our region.

The loyalty and support we have received from our supporters during these uncertain times has been humbling; from the enthusiasm for our #StillStandingFree campaign and donations to Aberdeen FC Community Trust. Then to season tickets, where 6,500+ supporters have already signed-up for 20-21, and AberDNA subscriptions. Several hundred supporters have signed-up for or renewed their AberDNA membership in recent weeks to directly support the Football Operation, taking us back above 6,100 members. Since its introduction in 2018, AberDNA has made a contribution of over £2million to the football operation. That’s money we simply would not have had, to add to the football budget, without your membership of AberDNA. That support has allowed further resources to be directed towards not only the first team, but to sustainably improve the infrastructure that sits behind what we see on the pitch at Pittodrie every other Saturday.

All the while, we have also been able to privately fund the Club’s first ever purpose-built training, youth and community hub at Cormack Park which now provides a fantastic base from which all staff and players work and develop. A return on this investment will be seen on the pitch but the greater and more sustainable reward will be our Youth Academy prospects making their mark over the next few years.

Our football philosophy and strategy sets out how we will strive to produce exciting winning performances through 11 core values.

To embed this philosophy and deliver our strategy and build a brighter future for the Club, we’re asking you to take a fresh look at AberDNA and, if you can, in these financially difficult times, consider becoming a member. The investment you make in AberDNA helps close the gap between us and teams which can draw upon a much larger fanbase and therefore revenues from season tickets, due to their location. It’s a contribution towards levelling the playing field, to your Club and in its future.

We are #StillStandingFree. But only together, will we be able to reach further, punch above our weight, stand taller and prouder.

Stand Free!

Dave Cormack
Chairman

AN INTRODUCTION
IN THE SHORT-TERM WE ARE **FIGHTING** FOR OUR SURVIVAL AND A SUSTAINABLE FUTURE, BUT WE HAVE LONGER-TERM ASPIRATIONS WITH EVERY INTENTION OF SEEING THEM THROUGH.

**DAVE CORMACK**
OUR AIM: TO INSPIRE OUR SUPPORTERS BY WINNING THROUGH AN EXCITING BRAND OF FOOTBALL, WITH INTENSITY AND PACE AND HOMEGROWN TALENT AT ITS CORE, TO BECOME A UEFA TOP 100 CLUB.
In revisiting and updating our football strategy to be ready for the opportunities and challenges of the developing football landscape, we have adopted many of the principles which have brought us successes over the years and in recent times - a recognisable football philosophy centred around homegrown talent. We are continually developing the performance environment and provide the Manager with the tools needed to deliver winning performances on the pitch. This is underpinned by a robust and reasoned strategic plan encompassing identifying, recruiting, training, developing, inspiring and rewarding the team on and off the pitch.

Succession planning allows us to predict our future squad, ensuring balance within the squad with individual plans for player development and a sustainable rolling football budget projecting 3-years ahead. This is all underpinned by an energetic and ambitious team of staff across professional and academy programmes who provide a best-in-class coaching and performance environment.

Steven Gunn
Director of Football Operations

Behind our football philosophy sits a robust strategy based on the 11 core principles of the AFC personality, which every AFC team member lives their working life by on and off the pitch.
There is a clear plan that everyone in the football operation is working towards, from the youngest academy player right through to all of the support staff and, ultimately, to the team that takes the field on a Saturday.

Steven Gunn
Director of Football Operations
The core financing of the football infrastructure at the Club comes from several sources including revenue from pre-existing income streams, mainly season tickets and walk-up ticket sales.

Historically the funding available has fluctuated based on the success of the team and external factors, outwith our direct control, such as our cut of the central SPFL TV deal.

Since 2018, additional investment has been made in the football operation from the AFC Board alongside a ring-fenced contribution from AberDNA, which has increased the core football budget. These funds are not reliant on results and performances on the field but the short term, but aimed at building long-term success.

Season tickets contributed just over £2 million to the football budget in the 2019/20 season, with walk-up ticket sales making up another £1 million and AberDNA contributing £1.2 million. That’s with 6,100 active AberDNA members. A further 1,000 members would add £200,000 to the football operation with 5,000 additional members generating £1 million more!
WE ARE BUILDING FUTURE VALUE THROUGH ALL ELEMENTS OF THE FOOTBALL OPERATION. THIS MANIFESTS ITSELF IN SEVERAL WAYS:

- Creating a visible player pathway for the youngest of our 150 Youth Academy players, right through to the first team squad
- Building value in the first team squad itself, in terms of the squad structure, age profile, contract strategy and individual player profiles
- Broadening our recruitment horizons, to maximise our investment and unearth hidden talents
- Delivering on-field success, building the profile of the club internationally
- Strategic and deliberate approach to player development from the day they arrive at Cormack Park, across all age groups, guided by a strengthened coaching team

BY DELIVERING THIS STRATEGY TO BUILD FUTURE VALUE, WE WILL:

- Prioritise and live our strategy; every staff member, every coach and every player throughout the entire football operation
- Realise value from our recruitment approach in the short, medium and long-term
- Make our emerging talent stronger and faster through further investment in best-in-class medical and sports science infrastructure
- Retain our most valuable staff by providing a high-performance environment with shared successes
- Build resilience in our succession plan, sustaining the success of the club for many years to come
OUR FOOTBALL PHILOSOPHY

Underpinning our aim to be a UEFA Top 100 Club, competing and winning regularly in all competitions, sits our football philosophy - playing an exciting brand of football built around a core of homegrown talent.

The AFC philosophy encompasses 10 key principles:

Awareness
Football Mastery
Responsibility
Positivity
Desire
Speed
Dominate 1v1
Executes Under Pressure
Never Beaten
Be Heard
A CORE OF HOMEGROWN TALENT:
AT LEAST ONE HOMEGROWN PLAYER HAS STARTED IN EVERY COMPETITIVE AFC MATCH SINCE AUGUST 30TH, 1947.

16 IN-HOUSE COACH EDUCATION EVENTS

20 SCOUTS
26 CURRENT INTERNATIONAL PLAYERS ACROSS ALL SQUADS

400 MATCHES EACH SEASON
1,900 COACHING SESSIONS

7,000 GYM HOURS AT CORMACK PARK SO FAR
19,003 OVERSEAS TOURNAMENT TEAM MILES TRAVELLED DURING 19-20
A MESSAGE FROM THE MANAGER

During my seven years at Pittodrie we have been fortunate to share many successes together on the rollercoaster that is the game we love.

Football clearly became a secondary thought for many as the country rallied against COVID-19 however, this period of reflection has made myself, my staff and my players hungrier than ever to achieve success for this Club, and for everyone connected to it.

We had much to look forward too; the race to secure European football for the seventh year in a row and a Scottish Cup Semi-Final. The picture could have been very different in recent months but the thought of what if is what is driving us forward during this challenging time.

We will get back to playing football in the very near future, competing at the top of our game, but whilst we experience this prolonged period without it, we must work together to ensure the long-term future of AFC and that is why the work continues behind the scenes on our refreshed football philosophy and strategy.

As has already been outlined we want to be a team which plays an attacking brand of football, centred around homegrown talent. Yes, winning is the most important thing to us but producing talent which excites and invigorates our support is also vital.

We must, as coaches and managers, be the biggest influence on a young player. We’ve got to provide the discipline, but young players must earn their opportunity. Every day they must make it count and as a Club we must highlight the reward for that approach.

Your continued support of the Club through season tickets and AberDNA is critical to the sustained success of Aberdeen FC. We are enduring a prolonged period of uncertainty due to COVID-19 however, by upholding a strategy of this nature it will undoubtedly help us emerge stronger and more successful.

Derek McInnes
Manager
“The picture could have been very different in recent months but the thought of ‘what if’ is what is driving us forward during this challenging time.”
