

HISTORY & LEGENDS

HISTORY

ALL ABOUT THIS CARD

Students will have the opportunity to develop their understanding of the history of the Netball World Cup. They will identify who the top teams are and explore past legends of the game.

LEARNING OUTCOME

- Build a timeline outlining the history of the tournament.
- Investigate the teams taking part in the tournament, determining who to watch out for.
- Generate information on the legends of the game.

ACTIVITIES YOU CAN ENGAGE WITH

ACTIVITY 1: TIME AFTER TIME

You are the oldest fan of the Netball World Cup and have travelled to every tournament since it started in 1963. Can you create a timeline to show which countries hosted and which team won each tournament?

EXTENSION ACTIVITIES:

- How many miles did you travel to get to each Netball World Cup?
- How has the format of the tournament changed?
- Write an autobiography of your experiences.

ACTIVITY 2: TEAM STATISTICS

You are a team scout; the coach has requested information on how other teams in the tournament have been performing. Can you create a presentation outlining your findings? How many times have they won the tournament or finished in the top five? Who is their top scorer? Who is their most capped player?

EXTENSION ACTIVITIES:

- Who are the key players from each team to watch out for and why?

ACTIVITY 3: CREATING SHINIES

Download and print the LEGENDS deck of Top Trump Player Cards. Read and learn about these ten players. Using the LEGENDS template card, research another legend of the game and create your own additional cards. This website [HERE](#) will give you a few ideas to help get you started.

EXTENSION ACTIVITIES:

- Can you research other competing teams and create a legend card for each team?

FAN ZONE LINKS

- 1 Add a timeline about the history of the tournament to your tournament noticeboard.
- 2 Add a statistic for each team to their team area.
- 3 Add a shiny for each team to create a wall of fame.

GET SOCIAL

Take a photo of the shiny LEGEND cards that you have created. Can you tag the player you have created?
