

Gender Pay Gap Report – March 2019

Relating to the snapshot date of 5 April 2018

The WRU Group is committed to inclusion and diversity in everything we do.

Whilst we are making strides both on and off the field to address diversity, and are proud of our current levels of investment and participation into women’s and girl’s rugby, we look at this as an area for continual improvement.

The gender pay gaps that exist are significantly impacted because of payments made to international players and elite coaches. These individuals are on higher salaries given their roles and all of these roles are currently filled by men, which understandably impacts our gender pay position.

The WRU does not operate a company-wide bonus scheme for employees. Our 100% bonus pay gap reflects the fact that all bonuses paid were in respect of roles filled by men (there being no women in the roles that were eligible for bonuses at the relevant time), the vast majority of whom are involved in the international game and therefore received performance related payments.
