Proposal of implementing the LW4x and LM4x into the European Championship program.

Dear Mr. President.

Dear Council Members and Delegates.

The Olympic lightweight rowing classes have been confirmed through the IOC to be the LW2x and LM2x for Tokio 2020. To support the athlete's pathway and structure of the federations for best preparation, it is our proposal to add the LW4x and LM4x into the European Championships.

A positive decision would support the lightweight sculling on preparation of young athletes for the Olympic games.

Sincerely,

Horst Nussbaumer
President
