CROATIA OPEN CHAMPIONSHIP IN ERGOMETERS CROATIA INDOOR – Rijeka 04.03.2017.

Croatian Open Championship in ergometer is one of three rowing competition in Croatia, which is included in the calendar of the World Rowing Federation FISA.

If you compare the competition in Rijeka 2015 and the year after - Rijeka 2016 - made a very big step forward in the organization and the quality of the competition. Croatia Indoor 2016 has yielded the following results in the first place competition held international character and we had competitors from Italy, Austria, Slovenia, and Bosnia and Herzegovina; performed more than 450 contestants; rowers rowing in all categories from 17 rowing clubs all over the Croatia. But the most valuable results are achieved in the senior category, as follows:

1. Martin Sinković 05: 46.6
2. Damir Martin 05: 50.2 was achieved personal best

Impressive if you know what was the end of their rowing season in 2016. Sinković brothers are the world and European champions and Olympic champions; while Damir Martin is European champion and an excellent second in the Olympics in Rio in 2016! And Sinković brothers and Damir Martin are traditionally announced their arrival to Croatia Indoor - Rijeka 2017.

At the Croatian Open Championship - Croatia Indoor 2017 organized by the Rowing Club Jadran Rijeka and Croatian Rowing Federation, we expect performance in the first place traditionally the most numerous young rowers in the categories cadet, junior, and then the most decorated Croatian rowers and the entire Croatian rowing representation in the senior category and junior. It will be our pleasure to welcome competitors from all rowing clubs.
