Subject: Re: Olympic Programme Proposal - DEN
Date: mercredi 9 novembre 2016 20:23:16

Dear Matt

Denmark would like to send a clear signal and stand on one proposal only.
So we - along with SUI, CAN and AUS - propose option 1. That is to replace the M4- in favor of the LW4- to achieve gender equality.
Therefore - Option 2 is withdrawn.

regards

Henning

2 November 2016
Lausanne, Switzerland

Dear Henning,

Earlier this year we received two proposals for a change in the Olympic programme in order to make the programme gender equal from your national federation. Your option 1 was to replace the M4- in favor of the LW4- to achieve gender equality. Your option 2 was to replace the M4- with the W4-.

I am writing to ask you to confirm whether you would like to have these proposed programmes (or just one) presented officially to the February 2017 FISA Extraordinary Congress.

Please confirm (yes or no) back to me by 9 November.

If you would like to present your reasons and argumentation for your proposal(s), please do so by 16 November so it can be included in the Agenda Papers. Details on the numbers of boats and rowers may be excluded at this point.

Regards,

Matt

Matt Smith
