

## 2016 Development Programme Event Bulletin

### World Rowing Championship Regatta

Due to special circumstances in 2016, the FISA Development Programme does not have the opportunity to offer free development accommodation. However, low cost options exist on a first come first serve basis for 5-6 persons in bungalow or shared 6-8 person dormitory accommodation.

Your national federation must confirm that they have a national selection document in place as of 2016 and have staged national championships in order to be eligible for FISA Development Support. FISA strongly encourages the selection of both female and male crews.

Limited Boats are Available for Loan or Rent.
