

How do you use your world to reach out and create opportunities?

A brief story...

1998 - Vice President of FISA, Tricia Smith ask Rowing Canada to organize a women's training camp. My first contact with the 'alphabet soup': OS, NOC, IFs, NFs, MoS, ASOIF...

Understand your environment

What are the opportunities for funding through the government, NOC or other organizations for your sport and talented individuals like yourselves?

What is application process and when/how does it need to be prepared.

Example - OS Women's Initiative

Rosie suggested Anita White Foundation opportunity.
Due to existing network and contacts - a special experience with great networking.

Daniela identifies potential candidates and FISA discusses with Nicole at OS for collaborative support

Invitation to apply is made to Ola, Sevara and Victoria.

Victoria is nominated

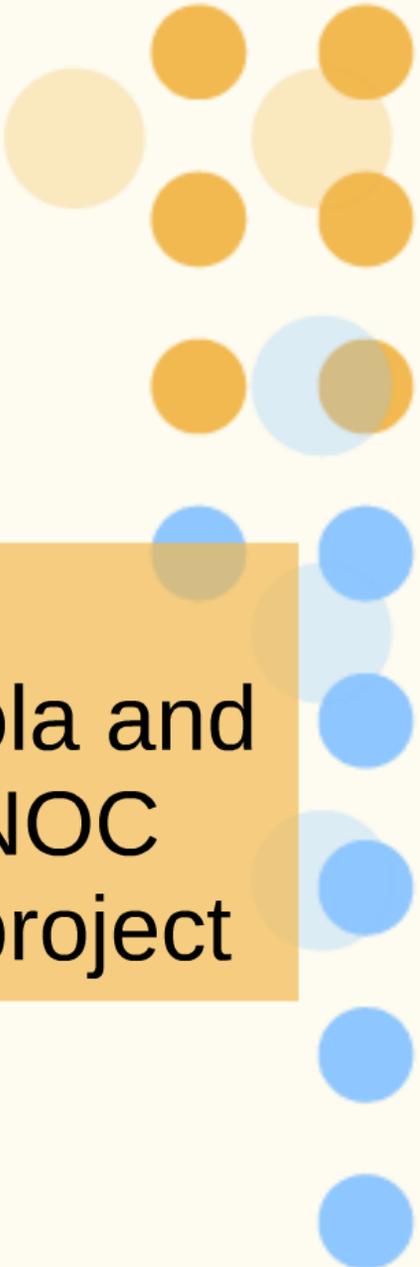

FISA contacted OS to request a joint support and then OS contacted the NOC who approved. Victoria is now in closer contact with her NOC and is recognized as being a leader in her field.

Severa is nominated...

Same process as with Vicky. Sevara has been involved with FISA activities and is on Youth Commission but delicate political environment. She continues to find pathways despite challenges.

Ola is nominated...

Ola's NOC was very positive to her participation. We learned that when she returned after her programme in the UK she became a member of the NOC's Women's Commission.

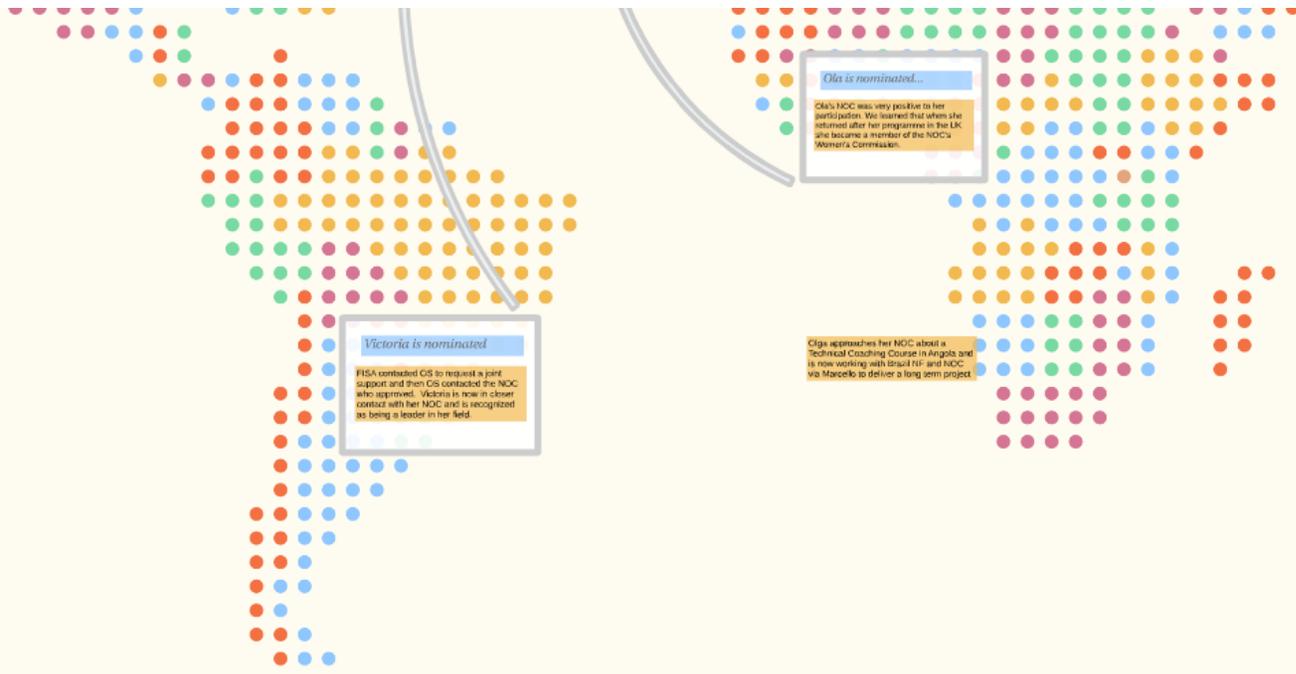

Olga approaches her NOC about a Technical Coaching Course in Angola and is now working with Brazil NF and NOC via Marcello to deliver a long term project

How do you use your world to reach out and create opportunities?
