National Federations' Conference

23 November 2018

Berlin, Germany

Agenda

Dag Danzglock GER

“We would like to share ideas: what are the challenges of federations outside the high-competitive-sport (f. e. cooperation federation / clubs, pleasure rowing, tour rowing, pogramms of education of trainers / coaches, rowing areas vs. environmental protection initiatives etc.) We would be able to present our agenda 2024 in a short way.”

“What are the ideas to attract female participation in different duties within the federations / clubs.”

National Federations' Conference

23 November 2018

Berlin, Germany

Agenda

Horst Nussbaumer AUT

“There are two key issues coming to my mind:

1. the power of a federation in an increasingly individualized world. How can Generation Y be integrated into team sports? How can pronounced individualists be integrated into the selection systems of federations like ours ? How can they realize themselves in a team, in a club, in a federation?

2. The future of light weight rowing – in particular in the Olympic regatta: is it a topic for the round table or will you address it in the course of the NF meeting? We are faced with lots of questions around this topic and we would highly appreciate to get an update on FISA's position. I suppose you've had many discussions inside FISA.”

Agenda

Inga Daukantiene LTU

“In Lithuania we are revising sport system nowadays, so would be interesting, if we can share information how is funded rowing sport in different countries, what are funding criteria and who are key partners casual day (municipalities, institutes, universities, etc., what role do they play?)

And analogical question with people with disabilities (para).”
