

Are you passionate about impacting performance and making a real difference?"

NZAS/Rowing Performance and Technique Analyst

Based in Cambridge, we offer an outstanding opportunity in Performance and Technique Analysis. This full time role is perfectly suited to someone who is passionate about high performance sport and views delivering support to Olympic campaigns as a career option.

This position is responsible for delivering technique analysis support to Rowing NZ elite coaches and athletes, as well conducting innovative applied research that guides practice. The successful candidate will be experienced in making a positive contribution to all aspects of the high performance environment.

The successful candidate will help Rowing NZ build on its recent successes at the 2010 World Championships (10 medals) and the Beijing Olympics (3 medals), in order to fulfil its priority goal to convert the current crop of top 8 world-ranked crews into multiple medals at the London 2012 Olympic Games, with younger athletes working towards the 2016/2020 Olympic Games.

Working for the NZ Academy of Sport and the opportunity to be immersed within the Rowing NZ high performance programme provides an outstanding opportunity to directly impact NZ's future sporting success. You will immediately be an integral part of a well developed high performance environment and enviable culture.
