Weather models and Buoys

- The Paris model is almost finished. We had a very good variation of weather conditions during the WRJC. We measure conditions with our Kestrels and the six new weather buoys that also measured wave height.
- Next year we are planning to model Poznan and Varese. Both location are frequent host of international and World Rowing events.
- The modeling will be done in close cooperation with Arnaud Greidanus who is already working on the environmental model of LA 28.

7. **Nebojsa Illic** Lead Coach Moldova
8. **Henk-Jan** developed the monitoring system for development rowers

Development rowing monitoring system

On request of the development team a monitoring system is build that holds testing results of all their rowers

At this moment 368 rowers from 45 different countries completed 1830 tests (150m, 2km, 6km, 10km and 15km)

For next year two improvements are scheduled:

1. Improvement of the presentation of the information
2. A planning/calendar module that sends messages to the different coaches about when the next test week should be held.

Development of Rowing in Moldova

- The mentoring work with the Moldovan Team, as part of the DNSS (Development of National Sport System), began in January 2022.
- The program included 4 rowers aged 21-25 years.
- Initially, based on athlete assessments, standards and methodological principles were defined, which, through training camps throughout 2022 and 2023 led to significant progress in all physiological characteristics relevant to rowing, rowing techniques, the psychological stability and safety of the athletes, and functional mobility.
- Thanks to a high level of enthusiasm, motivation, and a strong desire to make progress, in addition to the primary development goal, significant sports achievements were also attained:
 - At the World and European U-23 Championships (2022), they won a silver and bronze medal.
 - At the Senior World Championships (2022), they achieved 5th place.
- In 2023, the work continued within the same program (DNSS).
- The working standards were raised to a higher level with greater demands in terms of volume and intensity, as well as in all other areas relevant to sports performance.
 - Two rowers in the 2x made significant progress, securing 7th place in Lucerne (2023) and 12th place at the World Championships in Belgrade (2023), ultimately ranking first below the Olympic qualification line for Paris.
 - The other two rowers won a bronze medal in the 2- at the Universiade (2023).
- It is worth noting that all of this was achieved with minimal funding and without basic prerequisites such as quality boats and oars, as well as a complete lack of medical and therapeutic recovery facilities for athletes.
- Great contributions to this work were made by Daniela Gomes and Gianni Postiglione, as well as the National Rowing Federations of Turkey and Serbia.

Top 5 2024 Objectives

1. Continuation of the weather modelling for Paris, Varese, Poznan. Also for Continental venues like Los Angeles.
2. Fairness at all World Rowing Events in 2024
3. Seeding at Continental and Final Qualification events, World Cups, Senior World Championships
4. Work Towards a Joint Coaching Conference with SMC in 2025
5. WRVCC? Podcast series
6. Continue the development of a Ranking system
7. Development of a ranking system
8. Continental events –work with Continental reps and Development

Development of a ranking system

- With three members in the core group of the SECR the competitive commission is well involved in the future of rowing
- One of the biggest changes in World Rowing will be the introduction of a ranking system.
- The first step is to collect all requirements that serve the purpose of:
 - Switching from a training sport to a racing sport
 - Connect all events (World Rowing events and international events.)
 - Make rowing more attractive to public, media and sponsors
- We most probably need a qualification system for the WR championships.

1. Continuation of the weather modelling for Paris, Varese, Poznan. Also for Continental venues. **Henk-Jan**
2. Fairness at all World Rowing Events in 2024 **Chris**
3. Seeding at Continental and Final Qualification events, World Cups, Senior World Championships **Chris**
4. Work Towards a Joint Coaching Conference with SMC in 2025 **Marcello**
5. WRVCC? **Mario**
6. Podcast series **Paul**
7. Ranking **Peter**
8. **Continental events –work with Continental reps and Development** **Nebojsa**

Top 5 2024 Objectives

1. Introduce addtl. E&T Commission members on Para & Coastal topics to have certain redundancy
2. Get dedicated E&T page live filled with content
3. Engage with RITA & equipment service providers
4. Review equipment related rules ahead of 2025 extraordinary congress for all disciplines
5. Support all Commissions in "Technology related questions"

Top 5 2023 Achievements

1. Successfully designed and built coastal boat caliper (Measure min width acc.)
2. Established pre-event Para equipment check together with Para & Umpiring Com
3. Transferring and restructuring archive data, incl. Boat designs to World Rowing Share point
4. Event Assistance at 5 events
5. Solved things like the mystery of the bow number fixing and boat scales in Belgrade (issue with power supply)

Any Other Business

- We should start to think about our (Worldrowing) position on "Technology".

Technology has changed dramatically and the world with regards to "Technology" (available Technology as well as role and use in the daily life and field of Sports) looks much different than it was when WR rules were written.

We should look and think if and how it can be used in rowing and what the consequences could be.

Joint Commissions Meeting Para Rowing

2023 – Virtual

Top 5 2023 Achievements (based on 2022 Objectives)

1. Para Event Expansion:

- Para Rowing added to WR Beach Sprints (Inclusive 2x)
- Para Rowing added to WR Masters (Inclusive 2x)
- Para Rowing added to Lucerne World Cup (PR1 M1x and PR1 W1x).

2. Para Equipment Check Rollout:

- Successful implementation equipment checks at both Gavirate and Belgrade- process improved from first to second trial.

3. Paralympic Games / Global Representation

- 11 crews in the PR3Mix2x category from 3 continents, exceeding the target (157% to the target of 7 crews).
- 42 Mixed Fours (MFs) represented at 2023 WR events, exceeding the target (140% to the target of 30 MFs).

4. Enhanced Communication and Education:

- Improved communication with the Para Rowing and broader rowing community through webinars, coaching conference representation, and meetings with athletes, umpires, and coaches

5. Collaborative Relationships:

- strengthened collaborative relationships with other commissions, specifically the E&TC and UC

Top 5 2024 Objectives

1. Para Event Expansion:

- Add PR3 Mixed Inclusion 2x at U23 events, further promoting inclusivity and diversity in rowing
- Maintaining Inclusion 2x presence at WR Coastal and Masters events
- Review of Para events at 2025 World Rowing Championships including key stakeholders

2. Para Equipment Checks:

- Expand on the successful roll out of 2023 to offer equipment checks at each event with para rowing*

3. Paralympic Games Qualification/ Global Representation:

- Successful introduction of the PR3Mix2x race at Paris 2024, marking a significant milestone.
- 27 MFs represented at Paris 2024 Paralympics, showing growth from the 2021 Tokyo Games.

4. Enhanced Communication and Education:

- Expand efforts to communicate with the rowing community, focusing on educating and raising awareness about Para Rowing through storytelling, videos, and race commentary.
- Continued integration at WR Coaching Conference

5. Collaborative Relationships:

- Continuing to strengthen collaborative relationships with the E&TC UC
- Formation of a working group (WG) to address rules and strap-related discussions for the new cycle.

Any Other Business

- Budget requests: Ensure appropriate resources available at events to offer Equipment checks:
- *Equipment checks – offer at every event where there is para racing. Fine tune the process and documentation. What is shared with the athlete, and documentation stored centrally so all can access at any point. In order to have consistency, have a “Core Group” sign off with one representative from PC, UC, E&TC and CAP.

We kindly ask you to complete the presentation and the spreadsheet with the projects, travels' proposal and related budget by Monday, 30 October 2023.

Coastal Rowing 13 Objectives (V3)

2023-2028 (post Olympic decision)

1. Identify and announce the new **Coastal Rowing Commission** members. (Nov 2023).
2. Restructure the **WR Rule book** so coastal rules are not departures and keep the 'agile' nature of the formats.
3. Establish within the rules a **Principle Race Officer** with the mandate to oversee dynamic changes in racing due to 'fop' conditions and developments.
4. Establish an **Olympic qualification system** that attracts smaller nations to be part of 'road to LA28'.
5. Support Continental Federations and MFs to have access to **coastal rowing education** (coach, event and water safety).
6. Work with equipment manufacturers to **innovate boat design** (performance, durability and safety) and establish the **pool boat tender requirements** to support participation of smaller athletes.
7. Publish new OC guides that allow for the reduction in **cost and complexity**.
8. Develop a **open source timing and results service software** for continental federations and MF to use in their events. (use tablets).
9. Develop & fund a powerful **marketing strategy** that establishes the brand of coastal rowing. (think lifestyle).
10. Refresh the championships attribution process to attract OCs from a range of **global destinations**.
11. Establish **broadcast production and event event presentation philosophies** that communicates the coastal brand and differentiates it from classic.
12. Develop commercial model and broadcast product portfolio, designed to attract investors s and Partners (brands, hosts, media ...) into the discipline.
13. Establish an international WR **beach sprint world league** with team franchises.

Any Other Business

- With the positive news about the inclusion of Coastal Rowing in LA28, CRC look forward to continuing to work on the development of the discipline and both formats with the other Commissions in 2024.
- Thanks to Richard Mouchel (FRA) and Sarah Cook (AUS) who have come off the CRC during 2023 due to their professional obligations.
