

2026 Classification Opportunities at World Rowing Events

Please see below the classification opportunities in 2026. As we cannot always accommodate scheduling requests, please ensure that athletes are available for classification on all the dates listed for a given event.

Please note that the Classification Documentation Deadline for each event is 60 days prior to the classification panel. This is the deadline by which the Medical Diagnostics Form and **mandatory supporting medical documentation** for the athletes must be uploaded to the [World Rowing Online Classification Portal](#). Please upload your documentation and email the request to classification@worldrowing.com prior to the 60 day Classification Documentation Deadline.

Athletes with a valid sport class status cannot be reclassified unless their review date has passed, or unless you have requested a medical review in accordance with the World Rowing rules.
