The **player permit** scheme will operate as follows:

- (i) In any match in the Competition, a Club may play up to a maximum of 4 players on permit in total.

- (iii) Permits are not allowed to be granted to players who have already represented one club in the WRU National Plate as they are Cup tied for the remainder of the competition. - (vii) Details of the player permit system and process are outlined in Regulation 6 of the Player Registration and Transfer Regulations.
- (viii) Team sheets submitted to the referee prior to the start of a match **must** identify players on permit and their parent Club. The Team sheets must identify the tight head and loose head replacements. In addition, the Team sheets must identify the Head Coach of each Team.
- (ix) It is expected that team sheets are submitted electronically via MyWRU no later than 72 hours after the date of the tie.

(g) **Dual Registration Scheme**

A player who is dually registered will be eligible to play in the Competition. Details of the Dual Registration Scheme are set out in Regulation 8 of the Player Registration and Transfer Regulations. A player may not play for his Club if he played on dual registration for another Club in the previous round of a WRU National Knock Out Competition (be it Cup) however they

are ineligible to play for another team in the WRU Plate if they have already represented another team in the competition.

(i) **Replacements**

- (i) **In Rounds 1 to 4 of the Competition**, no more than 5 replacements may be named. If a Club does name 5 replacements, there must be a total of 5 players who are suitably trained and experienced who can play in the front row to ensure that on the first occasion that a replacement hooker is required and, on the first occasion that a replacement prop forward is required, the team can continue to play safely with contested scrums. This will include Two Hookers and three (3) prop forwards. The replacement prop must be either a Tight Head or Loose Head or a player capable of playing on both Heads. This will ensure that on the first occasion that a replacement hooker is required the game can continue safely with contested scrums. If a Tight Head were to be required and a team only has a Loose Head named as a Front Row replacement and he/she is not trained or able to play in that position then uncontested scrums will be ordered by the referee. Similarly, if a Loose Head were to be required and a team only had a Tight Head named as a Front Row replacement and he/she is not trained or able to play in that position then again uncontested scrums will be ordered by the referee.
- (ii) **In Quarter Final to Final Rounds of the Competition**, no more than 8 replacements may be named. If a Club does name 8 replacements, there must be sufficient front row players to play at hooker, tight head prop and loose head prop who are suitably trained and experienced who can play in the front row to ensure that on the first occasion that a replacement is required in each front row position the team can continue to play safely with contested scrums.

A Club may play without any named replacements. If that Club names 12 players only there is no need to name more than 3 suitably trained and experienced front row players.

If they are available, a team must have three (3) front row players in the front row at all times in an uncontested scrum, only when there is no available front row replacement or substitute is any other player permitted to play in the front row Law 3.6.e applies

**For clarification, the Laws of the Game states:-**

It is a team's responsibility to ensure that all front row players and front row replacements are suitably trained and experienced. (Law.3.12)

When 16 or 17 players are nominated in a team there must be three players capable of playing in the front row.

When 18 players are nominated in a team there must be four players capable of playing in the front row. (Law 3.8)

When 19, 20, 21 or 22 players are nominated in a team there must be five (5) players who can play in the front row to ensure that on the first occasion that a replacement hooker is required and, on the first occasion that a replacement prop forward is required, the team can continue to play safely with contested scrums. When 19 or 20 players are nominated in a team there must be five (5) players who can play in the front row (two (2) Hookers and three (3) Prop Forwards) as outlined above)

If a front row player is issued with a red or yellow card and as a result uncontested scrums are requested, then there is no need to further reduce the playing numbers.

During rounds when squads of up to 23 are allowed, a player whose departure has caused the referee to order uncontested scrums cannot be replaced, even if a team decided to start the game with less than a 23-man squad,

- Should a team be unable to field a front row at the start of a match, the match will begin with uncontested scrums. In such a scenario, the offending team will have to start the match with 14 players (it is the decision of the offending club which player they choose to remove, save that each team will be required to have 8 players in each uncontested scrum). The offending club will then only be entitled to two replacements for the match.
- Should a fixture start with contested scrums but, during the course of the match, a front row forward is unable to continue (the “Injured Forward”):
  - a) Where there is a front row forward replacement on the bench, the Injured Forward shall be replaced by the front row forward replacement. In such a scenario, the offending team may elect to move to uncontested scrums. However, should the offending team elect to do so, they must remove another player of their choice from their team (i.e. they will continue the match with 14 players). Each team will be required to have 8 players in each uncontested scrum.
  - b) Where there is no front row forward replacement on the bench, the Injured Forward shall be removed but not replaced. In such a scenario, the match will proceed with uncontested scrums. Each team will be required to have 8 players in each uncontested scrum.
- If a team starts a fixture with contested scrummaging and has the required front row cover to ensure they have named replacements but has to go to uncontested scrummaging they will still be allowed to use the named replacements for the remainder of the match.
- If a team is notified by their opponents prior to a scheduled fixture that scrums will be going uncontested, the team not electing to go passive will still be required to name five front row forwards in order to name a squad of 20 in line with National League Regulations.

The replacement of a front row forward **must** come from suitably trained and experienced players who **started** the match or from the nominated replacements.

If after a front row player has been sent off or during the time a front row player is temporarily suspended, and there are no further front row players available from the nominated team, then uncontested scrums will be ordered and the team electing to go uncontested will be unable to replace the offending player.

NB: In uncontested scrums there must always be 8 players in the scrum and the No8 from either side cannot pick up.

**It is not the responsibility of the match official to determine the suitability of trained front row replacements nor their availability, as this is a team responsibility.**

5. **Entry Condition**
